

Dickfos Dunn

Commercial Images worked along side BDA Architects, to fitout Dickfos Dunn's new office on the Gold Coast.

This was a full fitout consisting of Offices, Meeting spaces, Training areas and Kitchen.

As you can see above the offices have straight Mox Desks with XT screens and coloured mobile caddy units. This has created a fun and vibrant workspace.

Throughout this fitout Scope chairs, Lii Mesh chairs, Wing chairs and Mitt stools have been used in different areas.

In the meeting rooms and training rooms tables have been used with custom tops to create personalised tables suitable for the areas.
