

MATERIAL TROLLEYS

STORE-SAFE®

Designed to allow easy movement of heavy loads around work site.

All Purpose Trolley

TROAP
with 2 positions
for handles

Heavy loads can be moved easily and safely without causing health problems.

The All Purpose Trolley is constructed out of solid Bluescope steel plate. Built to withstand those knocks and drops that destroy other trolleys. Easy to pull or push around using the one tonne weight rated towing eye. The trolley will allow a more economical delivery of materials to the work place.

Features:

- Large flat carrying deck
- Four tie down positions
- Extra heavy duty polyurethane castors
- Powder coat finish
- 1100kg dispersed load carrying capacity
- Removable and repositionable handles
- Handle height: 990mm
- Castors: 2 x fixed; 2 x swivel
