

Wellcamp Airport

Commercial Images worked along side Feather and Lawry design in Toowoomba to fit out Wellcamp Airport waiting lounges and café. Wellcamp is Australia's newest airport, located 15 minutes drive from Toowoomba's CBD. This fit out has been created using Actiu products and customised furniture.

Actiu products that were used during this fit out are:

- Transit Plywood Bench Seating
- Canteen Tables
- Viva Visitor Chairs

These products have created a welcoming environment for arriving and departing passengers.

Working with the Actiu product are Commercial Images custom made ottomans. These have added colour and extra seating around the airport without cluttering the space.
