# MATRIX

The ideal sit-stand desk

# Matrix

Matrix is a unique sit / stand desk: one frame, wrapped in a sturdy, handy cardboard box, and forms the frame for any size sits / stand workstation. The pre-assembled frame is foldable and telescopic. The installation time is therefore very short.

With a range of 65-130 cm, Matrix meets all the required standards. The extremely quiet height adjustment, with 2 motors, also provides an extremely pleasant way of working in the most silent-sensitive spaces. That makes Matrix the ideal place to work: for office, home, study or workplace.

**Simple assembly: Ready in 5 minutes!**

**Height adjustment: 65-130 cm.**

**Fast: 40 mm per second.**

**Sound: only 39 dB!**

Matrix is available in three styles. As a corner office with a maximum size of 200 x 80 cm (+ extension 70 - 90 cm).  
As a Combi (H Frame), with optional separating screen.  
Matrix can also be combined with a 240 x 120 cm tabletop, creating a sit / stand meeting table.

# Quick assembly

1

The Matrix frame (251001XX) is packed in a sturdy box of 122x22x28 cm (lxbxh). The package has six handles for easy handling.

2

Open the box and fold it out. The frame is pre-assembled in the box.

3

Fold out the legs, slide the frame outwards to fit desired size and fix it with the bolts that are already mounted in the frame.

4

Mount the worktop on the frame and attach the digital controller. Your workstation is now ready for use.

### Handset

As standard, Matrix is equipped with a very user-friendly and environmentally friendly handset. The standby power is less than 0.1W.

### Memory display

As an optional extra, your Matrix desk can be equipped with a 4-position memory display. By pressing the up button and a digit key, you can program the current height.

### Telescopic Frame

The Matrix frame is telescopic from 120-200cm and suitable for all lengths within that range.

### Triple Profile Leg

Matrix has three-stage legs that are adjustable up to 130 cm. The silent setting (39 dB) goes at a speed of 40 mm per second. The maximum load is 120 kg.

# Accessories

Q4 500mm Post + 1x ZOOM 102 (Incl. Zoom Arm)
