OXIDESK | THE VITALISING WORKSTATION

The Oxidesk, developed by Markant in accordance with idea by TNO, is a flexible work station, where work and exercise go hand in hand. Simple and versatile. The design is accessible, user friendly and compact. The Oxidesk helps office personnel to be productive in a healthy and sustainable way. You can make phone calls, type, surf on the internet or read a newspaper, while you unnoticeably vitalise body and mind.

THE OXIDESK PHILOSOPHY

- While working on the Oxidesk, you can be just as productive as on a traditional work station.
- Even light exercise helps the blood flow through your organs.
- Movement stimulates the back and prevents back problems.
- Working on the Oxidesk contributes to the daily requirement of exercise.
- Exercise refreshes and vitalises. You work healthier and smarter at the same time.

VERSATILE AND FAST

Adjusting the Oxidesk to your specific demands is swift and easy. Within seconds you're ready to start working in a healthier way. First, adjust the saddle height. Then the table height. Determine the power level. Pull the table towards you and start working.

TABLE HEIGHT AND -DEPTH

Adjustment of table height and -depth through one comfortable placed knob.

RESISTANCE

A knob below the saddle allows you to adjust the resistance in 15 levels.

ELLIPTICAL MOVEMENT

Thanks to the specially designed elliptical pedalling motion and optimal elbow support close to the body, the upper body remains stable. Any office task can be performed accurately.
