

Adaptable To Any Environment

A strong, lightweight and environmentally friendly system for those looking for that contemporary feel and value. The system has been designed to use as little materials as possible without compromising quality and strength. All components are recyclable and the manufacturing process follows environmentally sustainable principles.

Complementary

A-Frame is compatible with all of our screens systems and accessories. If you're after a minimalist look and feel pair with our Ozone screen or if structured solid look is required it can be paired with our Exe series screens incorporating integrated ducting. Please turn over for specification guide.

a-frame

specification guide
