

Tweed Health for Everyone

Commercial Images worked along side MRI Design to complete the fitout for the Tweed Health for Everyone, located on the Gold Coast

A selection of chairs were used in the waiting areas and consult rooms. Chairs used are Actiu Spacio upholstered in a selection on fabrics and Wind bench seats.

In the consult rooms A-frame workstations have been used with TNK task chairs and Spacio chairs. All consult rooms have mobile pedestals, powder coated to match A frame legs.

In meeting spaces Actiu Spacio chairs have also been used around folding tables to create a functional and user friendly space.
