health station

## Specifications

Electronically operated sit stand desks are the ideal solution for changing your working position easily and quickly at the touch of a button. Burgtec have designed the Hi-Lo health station which is manufactured in Balcatta WA. Hi-lo is made to order and is suitable for rectangular, L-shape & 120 degree layouts to your specifications.

### Unique features of Hi-Lo health station:

- **PIEZO anti-collision software**  
A hardware based anti-collision solution like PIEZO is more sensitive and works faster than a typical software based solution. The sensor feels for any obstruction when raising or lowering the desk, then halts and reverses to avoid collision, safeguarding the office equipment
- **DESKLINE® Desk Control™ integrated software**  
The new DESKLINE® Desk Control™ software can be installed on your computer (PC or MAC) making the use/adjustment of your desk very intuitive in your daily work.  
The software program contains the typical control features like up & down adjustment, up to 3 memory positions and height read-out. Additionally, the program reminds you to adjust your desk, counting the time standing as well as the calories burned. The intervals are self-elected making Desk Control a very personal tool.
- **Control option 1 - DPF1M**  
The up and down buttons have been made extra "user-friendly" as they are shaped "according to the function" meaning the user can feel the differences and it is not necessary to look when operating the system. The DPF1M switch also allows the user to set up to 3 memory points (heights)
- **Control option 2 - DPT**  
The innovative & modern DPT DESKLINE® touch control panel is designed for integration directly in the table top ensuring optimal ergonomic use for the end user. It shows the actual desk height in the display and has 3 memory positions which the user can set.

## Materials and Finishes

Feet/columns - Silver grey, white or black powder  
Top - to your selection

## Dimensions

Height Range 610 to 1270mm  
Worktop Lengths 1200 - 2400mm  
Worktop Depth 600 - 1000mm  
Weight Capacity - 70kg per leg

**Warranty** 5 years
